THE COUNCIL AND ITS SERVICES

Established in 1967 as an agency of state government, the Montana Arts Council encourages the expansion of opportunities for all Montanans to create, participate in and appreciate the wide range of all the arts regardless of age, sex, ethnic origin, income, physical ability or place of residence.

The Council strives to instill in Montanans the realization that the arts and creativity are a natural resource which must be preserved and promoted to advance our cultural legacy.

The Council extends resources and services to communities, organizations and individuals to stimulate and strengthen quality arts programming throughout the state by: providing financial assistance, through a competitive granting process, to support arts events, organizations and networks; delivering technical assistance in response to identified needs; coordinating support systems and making available touring opportunities for the maximum benefit of Montana audiences; facilitating arts experiences with professional artists for as many students in Montana's schools as possible; identifying, documenting and presenting aspects of Montana folklore; fostering the documentation of Montana's arts endeavors in both visual and written forms;

serving constituencies with special needs. Within limited available resources, the Council also initiates research, planning, evaluation and dissemination projects in the best interests of the consumers and producers of the arts in Montana.

COUNCIL MEMBERS

The Council is composed of fifteen private citizens who are appointed by the Governor and who serve without pay. The Council meets four times a year to develop policy and to make final decisions on applications for funding.
